STATEMENTS/SPACE USAGE

Producers and directors should submit brief statements in which they discuss their vision for the show. Why this show? Why this space? Why this team? Artistic vision? (maximum 200 words amongst all statements).

COVID rules on performances currently require that a distance of at least 6 ft must be maintained between any unmasked performers. A distance of 14 ft must be always maintained between the unmasked performer(s) and the audience. Please affirm that your production is able to meet these requirements and will abide by all COVID rules?

Yes

No

Please describe how you will use the space. Do you intend to use the tech of the space, ie. lights or sets? Please note that COVID rules (above) will significantly limit the ability to use the shop and to put sets in the space.

Shows planning to use the technical capabilities of the space (beyond just the projector) will need to schedule a training session with Tom Morgan (tmorgan@fas.harvard.edu) at least two weeks before their residency.

RIGHTS

Shows applying for the space must ascertain that the rights to any work in copyright are available and affordable. All formal correspondence with publishers and copyright management companies should be handled through Dana Knox, Production Coordinator (danaknox@fas.harvard.edu).

Please be aware that rights contracts usually take 4 to 6 weeks to complete (sometimes more); it is both a practical and legal problem to cast, rehearse, advertise, or perform a show before the rights agreement is complete. So start this process early!

Please state below if you will need rights for your production, and if so, what the status of that rights process is.

FINANCES

We are waiving the typical \$200 Pool Theater residency fee for Spring 2022.
